UNDERWATER SEARCH UNIT	<p><i>Paper carried forward from main FPG meeting 05/03/10.</i></p> <p>CC referred to an updated paper dated 26 March 2010 previously circulated, together with comments tabled by Mr Mauger dated 31 March 2010. These papers formed the basis of discussion of the Underwater Search Unit under the ACPOS agreement, operational requirements and cost implications fitting with the modern agenda.</p> <p>After discussion, the contents of the papers were noted and the aspects of spend were recognised. Given the critical position with SR 2010, along with dependencies of forces as part of the national asset, it was agreed that, in the first instance, Mr Smith would speak with ACPOS President to ascertain whether ACPOS would be agreeable to take this on board as a national issue.</p> <p>ACTION: Mr Smith to speak with ACPOS President to ascertain whether ACPOS would be agreeable to take this on board as a national issue.</p>	<p></p> <p>CC</p>
